### People

Name ▼	Description ▼
Rishi Shah	<p>Rishi Shah</p> <p><a href="#">Twitter Rishi Shah</a></p> <p><a href="#">Getting More Awesome Blog</a></p> <p><a href="#">Digioh Enterprise Marketing Suite</a></p> <p><a href="#">Flying Cart - Create an Online Store</a></p>
Robert Steffes	<p>Head of Product</p> <p>Robert applies his passion for technology as Digioh's Head of Product. Before co-founding Digioh, he worked as engineering development lead at GE and Flying Cart an ecommerce shopping cart that supports 12,000 online stores. Robert is the most optimized and efficient human you will ever meet. He is constantly thinking of ways to optimize all aspects of his own life; his morning commute, working out, and of course. Lucky for us, Robert applies the same rules to collecting new leads!</p>
Benjamin Parnau	<p>API Integration Specialist</p> <p>Benjamin Parnau is what we like to call "The Creative One". He uses rational innovation to solve complex puzzles and problems. Ben has integrated with over 11 APIs and knows his way around them well. He can look at an API and integrate it into Digioh in a matter of hours. As well as a talented musician/songwriter, he is always willing to entertain a good challenger on the chessboard.</p>
Priya Sheth	<p>User Experience and Design Lead</p> <p>Understanding what the customer needs and being able to show it to them without words is what Priya does best. She leads user experience at Digioh. Taking customer feedback data and making design tweaks to make our product easier to use. On the weekends you can find Priya explaining complex concepts with a sock puppet!</p>
